

## **Abstract/Case Report Reminders**

Thank you for presenting an abstract/case report at the IEOC/an-vision, Inc. Symposium. This is a reminder that you will need to meet in the St. Giles room on the day of your presentation with your PowerPoint presentation on a USB flash drive between 7:30am-8:15am and upload it to the main presentation computer. You will need to have your USB flash drive ready to be loaded into the main computer hard drive at that time. If you arrive late to pre-load your presentation, you may risk forfeiting your presentation.

Speakers should prepare their presentations using PowerPoint Only AND ALL MUST BE PC FRIENDLY. Please do not plan to run live videos or stream off the internet while presenting, as this can be unreliable.

Be aware that video can sometimes cause problems. We recommend a version without video also.

Please refer to the schedule in the proceedings for your presentation time.

**Audio/Visual support on-site will be minimal.**
